

PAREEK ELECTRICALS

Policy No PE/22-23/05

Medical policy for employee

While hiring any employee to work for our company we first check the fitness of that person physically and mentally. A take him form medical check-up that are required for him to work in all existing conditions. We have conducted routing medical examination of all contractor workman I.e General fitness, Blood pressure, CBC test, pulse rate & other medical test as per requirement. If it is determined through physician consultation that the individual is unable to perform the essential functions of his job with out impairment caused by the medication or the under condition the employee will be directed not to work using available medical leave options until able to fully perform the essential functions of their job.

Medical examination carried out by company medical officer as per schedule.
